

COUNTRY 210 PERFORMER SERIES

COUNTRY STOVES 210 PERFORMER T-TOP AND STEP-TOP
FREESTANDING WOOD STOVES

T-Top 210 shown with traditional 24K gold plated door and Olympic 24K gold plated cast legs. (T-Top 210 available with traditional door only)

Step-Top 210 shown with 24K gold plated arched door and Olympic 24K gold plated cast legs. (Step-Top 210 available with arched door only)

210 PERFORMER SERIES – VERSATILE, STYLISH AND REMARKABLY EFFICIENT:

Classic design, clean-burning, easy to use, elegant ambience... This is Country's 210 Performer series wood stove. Mid-sized for moderate heating needs, you will appreciate the 20" wide and 18" deep firebox making loading the 210 Performer simple. Stainless steel burn tubes and state-of-the-art secondary burn technology provide the long, clean burns Country is famous for.

We recently redesigned the 210, giving you two new looks to choose from. Try the more contemporary Step-Top with its arched door or the classic T-Top with a traditional door. Either is available with gold, black, or nickel door and accents. Whichever model you choose, the EPA Phase II certified, non-catalytic 210 Performer will provide you and your home with a lifetime of warmth.

**COUNTRY STOVES**
A LIFETIME OF WARMTH

FEATURES:

- Easy to install with close clearances
- Large 2.1 cubic foot firebox for easy loading
- All secondary burn components inside the firebox made of stainless steel for long service life
- Singular draft control technology offers ease of operation
- Mobile home approved for freestanding applications, pedestal or leg mounted
- See back of flyer for a wide variety of options allowing you to add distinction and a personal touch to your handcrafted Country Stove
- Choose from T-Top or Step-Top styles
- Multi-level top provides increased surface area for greater heat transfer and dual cook-top surfaces

COUNTRY SIGNATURE STOVES

These are not assembly line produced heaters, but premium hand-crafted appliances. Each stove is constructed almost entirely by a single craftsman, giving the builder a special pride and responsibility in workmanship – assuring you a lifetime of warmth.

* These specifications are for reference only and shall not be used for actual installation. Use installation instructions for actual installation.

* Heating capacity varies due to home insulation, floor plan and climate.

* Burn times will vary depending on species of wood, pipe configurations, and burn habits.

** Efficiency varies slightly with various pipe configurations.

This appliance must be installed in accordance with local building codes.

DOOR & GLASS OPTIONS

Hand finished 24k gold plated traditional door with Evergreen etched glass.

Arched door in metallic black with Sails etched glass.

Hand finished 24k gold plated arched door with Floral etched glass.

Hand finished nickel plated traditional door with Cattails etched glass.

LEG OPTIONS

Choose from four options:

- A. Cascade steel leg
- B. Olympic cast black leg
- C. Olympic cast leg in hand finished 24 karat gold plating
- D. Olympic cast leg in hand finished nickel plating

STOVE BLOWER

Country's optional variable speed, 700 cubic feet per minute (CFM) blower is the largest blower available for any stove. It is custom-designed and moves a high flow of air volume while remaining whisper quiet at higher settings. The FSB700 fits any of the Country's freestanding stoves while utilizing the high heat and natural convection from the stove body.
